The Ponce de Leon Hotel

ST. AUGUSTINE, FLA.

REACHED BY THE
E.T.V. & G. SYSTEM.

The Ponce de Leon, one of the great palatial hotels of Florida, is built in the style of the early Spanish renaissance. Its vast size and picturesque outline at once impress the visitor. The coloring is as rich and varied as the outline. The interior is finished in marbles, mosaics, and oak. The rotunda is four stories high, with corridors looking down into it from each floor. The great dome is beautifully decorated with figures carved in high relief, and above these are paintings representing the early history of Spain and Florida. The parlor is a room 53 x 104 feet, but divided into five rooms by arches, portieres and screens. The great dining hall is attractive in the extreme, beautifully decorated, with table and attendance the best in the land, and large enough to seat 850 persons at one time. The whole house is lighted with electricity and all appointments are very complete, and on a very large scale, ample for 750 guests without crowding. TWO trains arrive and depart daily at St. Augustine by way of the East Tennessee, Virginia & Georgia System.
